

McArthur River Mine Community Reference Group

The McArthur River Mine Community Reference Group held its inaugural meeting on Thursday 27 July 2023 at the MRM mine site.

Although a number of members were unable to attend, the members who were present noted it was a positive step forward in open and transparent communication and a good opportunity to learn more about the mine's operations.

The members participated in a full-day site tour to familiarise themselves with the operations and met key leaders from the mine site.

The Independent CRG chair and members are appointed by the Minister for Mines to facilitate open communication between the community and the mine.

The next meeting of the CRG will be held at the end of November where it is expected to confirm its Terms of Reference and Code of Conduct.

Richard Galton

Independent Chair

Community Reference Group for McArthur River Mine
