Permit or licence being applied for Exploration Permit Applications EP172 & EP177

Date of determination 29 August 2024

1. Background

- (a) The Applicant applied for the *transfer* of Exploration Permit applications (EP) EP172 and EP177 under section 57AAB of the *Petroleum Act 1984* (Act).
 - (b) Section 57AAB(5) of the Act requires me to be satisfied that the proposed transferee (Applicant), and any associated entity of the proposed transferee, is an appropriate person to hold a permit or licence as required by section 15A of the Act.
 - (c) Section 15A of the Act requires me to be satisfied that the Applicant, and any associated entity of the Applicant, is an appropriate person to hold a permit under the Act. In making that determination I must have regard to the matters set out in section 15A(1) and, where necessary, section 15A(2) of the Act.
 - (d) Section 15A(5) provides that I must publish, on the Agency's website, the reasons why I have determined that an Applicant, and any associated entity of the Applicant, is or is not an appropriate person to hold a licence or permit under the Act.
-

(e) This document contains my determination and my reasons.

2. Determination

(a) I am satisfied that the Applicant, and any associated entity of the Applicant, is an appropriate person to hold a licence or permit under the Act.

3. Reasons for determination

(a) I have had regard to the matters set out in section 15A.

(b) Where there is a reference to a director, I have taken into consideration any person concerned in the management of the body corporate as is required by section 15A(3).

(c) The table below sets out the matters referred to in section 15A(1). I set out in that table the material factors that are relevant to each such matter.

Section in Act	Matter	Material factors
15A(1)(a)	<p>The Applicant or associated entity's record of compliance with the prescribed legislation, including:</p> <p>(i) whether the Applicant or entity has contravened any of the prescribed legislation; and</p> <p>(ii) the seriousness of any contraventions; and</p> <p>(iii) the length of time since the contraventions (if any) occurred; and</p> <p>(iv) any other matter the Minister considers relevant.</p>	<p><i>The Applicant has not contravened the prescribed legislation.</i></p> <p><i>An associated entity of the Applicant, the parent company, has contravened the prescribed legislation.</i></p> <p><i>The associated entity's record of compliance with the prescribed legislation is as follows</i></p> <ul style="list-style-type: none"> • <i>In 2017, Santos Limited was issued an Environment Improvement Notice by NOPSEMA in relation to a contravention under the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations regarding contents of offshore project proposal.</i> • <i>In 2023, a civil penalty of \$70,031.25 was issued to Santos Limited under section 83A of the Environment Protection Act 1993 (SA) for failing to notify the EPA of a discharge.</i> <p><i>The contraventions were disclosed in the Appropriate Person form provided by the Applicant and in the parent company's Annual Reports. An online search did not reveal any further instances of non-compliance by the Applicant or its associated entities.</i></p> <p><i>I consider that the incidents are not of a sufficiently material nature to prevent the associated entity from being determined an appropriate person to hold a pipeline licence.</i></p>
15A(1)(b)	<p>Whether the Applicant or associated entity has held a licence or other authority under the prescribed legislation where that</p>	<p><i>The Applicant holds or has previously held operating interests in the following tenure in the Northern Territory:</i></p> <ul style="list-style-type: none"> • <i>EP82 – Southern Amadeus - Active</i> • <i>EP105 – Southern Amadeus - Active</i> • <i>EP106 – Southern Amadeus - Surrendered</i>

- (xi) Search of online information.
- (f) *I have reviewed the incidents of non-compliance by Santos Limited. I considered the nature and seriousness of the contraventions; that none of the incidents have had a materially adverse effect on Santos Limited's business, on the results of operations or its financial performance; that there are management systems in place to reduce or mitigate risks; and that corrective measures are undertaken to prevent re-occurrence. While I acknowledge Santos Limited's compliance history, I consider that the incidents are not of a sufficiently material nature to prevent it from being determined an appropriate person to hold an exploration permit application.*
